HANNOVER – A WELCOMING CITY FULL OF SURPRISES

The green capital of Lower Saxony is home to half a million people and hosts international trade fairs as well as the world’s biggest Marksmen’s Fair. With festivals throughout the year, the unforgettable zoo, and well renowned theatres and museums Hannover is a vibrant city that wins over all visitors with its diversity and love for detail!

An absolute must-see are the famous Royal Gardens of Herrenhausen, one of Europe’s most beautiful and best preserved baroque gardens with its recently rebuilt palace. From May to September the stunning international Fireworks Competition takes place here and the world’s top pyro-technicians fill the evening sky with explosive artworks of light and music. And during the well-loved Little Festival in the Great Garden dancers, actors and musicians perform here.

For an enchanting experience amongst fountains and statues there are special nights throughout the summer when the garden is magically illuminated and classical music takes you back to bygone eras of kings and queens.
Dear colleagues,

The constant progress in plastic surgery has lead to powerful surgical techniques, methods and strategies, of which many more are to be expected in the future.

However, in no other surgical field the visibility of the results is that appreciated as in our specialty. The best aesthetic outcome is therefore the ultimate goal for each of us, which imposes a constant challenge on our work and is along the same line one of the driving forces of progress in our specialty.

In this 1st Hannover Masterclass Symposium we want to share with you exclusively the particular challenge of the best aesthetic result in plastic surgery as it relates to patient selection, indications, effective techniques, obsolete procedures and new (non-invasive) technology.

Internationally renowned experts will share their experience in lectures of how to achieve the best aesthetic outcome in plastic, reconstructive and burn surgery. A particular focus will be on case presentations and educational videos. All interested plastic surgeons have been invited to submit abstracts of their best case showing solutions in standard and difficult conditions or complications. Intensive discussion shall provide a blueprint to build new efficient strategies in our practice.

The world famous and outstanding conference location of the Royal Herrenhausen Castle is just right for the exchange of experience, stimulate new ideas and hopefully to leave us all as better experts in providing the ultimate aesthetic results for our patients.

Hope to see you all in Hannover!

Kind regards

CONFERENCE LANGUAGE
The official conference language is English.
11:00–11:30 OPENING

11:30–12:00 KEY NOTE OPENING LECTURE
Growing importance of aesthetics in plastic surgery
Peter M. Vogt (Hannover/DE)

12:00–13:30 FACE I
Chairs Johannes Bruck (Berlin/DE), Manfred Frey (Vienna/AT)

12:00 Saving the unfavorable facelift result
Johannes Bruck (Berlin/DE)

12:30 Aesthetic facial reanimation in facial palsy
Manfred Frey (Vienna/AT)

13:00 Bony foundation for facial aesthetics
Nils Gellrich (Hannover/DE)

Case presentations and live voting

O 01 LCL (Locked Cheek Lift) – three dimensional cheek lift and inferior palpebral rejuvenation
Ebba Sabri (Paris/FR)

O 02 A novel subcutaneous pedicled “propeller” flap method to repair defects of the lateral mid-cheek region
Istvan Juhasz (Debrecen/HU)

O 03 The principles of function-based aesthetics in facial surgery to prevent and correct unwanted results
Kurt Vinzenz (Vienna/AT)
14:00–16:00  BREAST I

Chairs  Karl Breuing (Providence, RI/US), Günter Germann (Heidelberg/DE)

14:00  Controversial – Implants vs. flaps?
Christoph Heitmann (Munich/DE)

14:30  Do ADMs save the aesthetic results in the long run?
Karl Breuing (Providence, RI/US)

15:00  How to save aesthetics in the operated breast?
Günter Germann (Heidelberg/DE)

15:30  Standard of care in oncological breast surgery
Michael Knauer (St. Gallen/CH)

Case presentations and live voting

O 04  Developmental breast asymmetry – a possible treatment approach
Diogo Cruz (Münster/DE)

O 05  Incorporating the patient’s aesthetic wishes and expectations in plastic reconstructive surgery of the breast
Marc Busche (Leverkusen/DE)

O 06  A safe and simple salvage procedure after a desastreous course of a breast reconstruction in breast cancer
Ursula Tanzella (Birkenwerder/DE)
16:30–18:00  EXTREMITIES I  
Chairs  Riccardo Giunta (Munich/DE), Kyros Ipaktchi (Denver, CO/US)  

16:30  Aesthetic challenges in hand surgery  
Riccardo Giunta (Munich/DE)  

17:00  One stage reconstruction of the mutilated hand  
Kyros Ipaktchi (Denver, CO/US)  

17:30  Respecting aesthetics in trauma reconstruction  
Lawrence Scott Levin (Philadelphia, PA/US)  
via video broadcast  

18:00–19:30  TRUNK I  
Chairs  Dennis Hurwitz (Pittsburgh, PA/US), Jutta Liebau (Düsseldorf/DE)  

18:00  Advances in reshaping the waist, featuring oblique flankplasty  
Dennis Hurwitz (Pittsburgh, PA/US)  

19:00  Best technique for best results  
Jutta Liebau (Düsseldorf/DE)  

Case presentations and live voting  

O 07  Sub-Muscular Safe (SMS) technique for buttock augmentation with gluteal implants  
Ebaa Sabri (Paris/FR)  

O 08  Avoidance and treatment of persistent lymphorrhea in thigh lift operations  
Niklas Dellmann (Castrop-Rauxel/DE)
08:00–09:30  TRUNK II
Chairs  Anton Schwabegger (Innsbruck/AT), Uwe von Fritschen (Berlin/DE)
08:00  Aesthetic perfection after breast reconstruction
       Uwe von Fritschen (Berlin/DE)
08:30  Saving aesthetics of the chest wall
       Anton Schwabegger (Innsbruck/AT)
09:00  Enhancing form and function in vulvar reconstruction
       Dan mon O’Dey (Aachen/DE)

10:00–12:30  BREAST II
Chairs  Bishara Atiyeh (Beirut/LB), Lukas Prantl (Regensburg/DE)
10:00  Metrics of the ideal breast
       Bishara Atiyeh (Beirut/LB)
10:30  Women’s expectations from breast surgery
       Tina Peters (Hamburg/DE)
11:00  Multiplanar technique for aesthetic breast augmentation
       Marian Mackowski (Hamburg/DE)
11:30  Aesthetic aspects in male breast surgery
       Tobias R. Mett (Hannover/DE)
12:00  Optimizing aesthetics in breast malformation
       Lukas Prantl (Regensburg/DE)

12:45–13:45  SYMPOSIUM mi.to.pharm GmbH
14:00–15:30  EXTREMITIES II
Chairs  Gerhard Pierer (Innsbruck/AT), Marco Innocenti (Florence/IT)

14:00  Aesthetic challenges in reconstructive surgery of the lower leg  
Gerhard Pierer (Innsbruck/AT)

14:30  Reaching oncological safety with maximising the functional and  
aesthetic result  
Marco Innocenti (Florence/IT)

15:00  Saving aesthetics and function with secondary free flaps  
Milomir Ninkovic (Munich/DE)

Case presentation and live voting

O 10  Circumferential degloving injury of the lower limb – optimizing  
aesthetic results of skin grafts  
Anna Kasielska-Trojan (Lodz/PL)

16:00–17:30  FACE II
Chairs  Wolfgang Gubisch (Stuttgart/DE)  
Albrecht Franz Krause-Bergmann (Münster/DE)

16:00  Aesthetic save of the bad result after rhinoplasties  
Wolfgang Gubisch (Stuttgart/DE)

16:30  Facial burns – have we made progress?  
Bohdan Pomahač (Boston, MA/US)

17:00  Minimally and non-invasive technologies for facial rejuvenation  
Katharina Russe-Wilflingseder (Innsbruck/AT)

Case presentation and live voting

O 09  Reconstruction of the moustache using a thin, free hair bearing flap  
Niklas Dellmann (Castrop-Rauxel/DE)
17:30–18:00  **BURNS**  
Chair: Milomir Ninkovic (Munich/DE)

17:30  Use of lasers in treatment of burn scars  
Ludwik Branski (Galveston, TX/US)

18:00–18:30  **FAREWELL**

18:00  Take home messages  
Peter M. Vogt (Hannover/DE)

20:00  Gala dinner

---

**Poster**

P 1  Optimization of periorbicular aesthetic reconstructions  
H. Thomas Haffner (Cologne/DE)

P 2  Optimization of breast reconstruction results using the TMG flap: evaluation of several refinements addressing flap design, shaping techniques and reduction of donor site morbidity  
Stefanie Nickl (Vienna/AT)

P 3  Venous superdrainage in DIEP breast reconstruction – the impact of superficial inferior epigastric vein dissection on abdominal seroma formation  
Jakob Nedomansky (Vienna/AT)
Gala dinner

For the grand finale of the 1st International Summer Symposium, we would like to invite you to our gala dinner. Enjoy culinary delicacies prepared by the royal kitchen staff, relaxing sounds of the band “Kasimir Effekt” and the highlight of the evening – the spectacular fireworks of the legendary team “Scarpato Pirotecnica” with the exclusive view from the terrace of the castle in the background.

Location  Herrenhausen Castle
Date      Saturday, 26 May
Time      20:00 hrs
Fee       129 EUR per person including dinner, drinks, music, and fireworks
Gold sponsor
mi.to.pharm GmbH (Wolfenbüttel/DE)

* Please send a confirmation of your status either to registration@conventus.de, Fax +49/03641 31 16-244 or by mail to Conventus GmbH l indicating the keyword: Masterclass2018 l Carl-Pulfrich-Straße 1 l 07745 Jena l Germany

Payment and confirmation of payment
An invoice or confirmation of registration will be sent to you via postal or electronic mail within 14 days. This invoice is a valid invoice which may be submitted to the local tax and revenue office. All fees are due upon receipt of invoice/registration confirmation. Payment transfers must include participant’s name and invoice number. Payment is also accepted by credit card (Master-/Eurocard, American Express, VISA). Should you transfer your invoice amount within 10 days of the start of the event, please present your transfer remittance slip on-site.

The registration fees include
• Admission to all scientific sessions and access to our industrial exhibition
• Conference materials (conference bag, final program, abstract publication, name badge, etc.)
• Coffee breaks and lunch

General terms and conditions
Please find our general terms and conditions at www.masterclass-plasticsurgery.de.
**Accommodation**
We have reserved a contingent of rooms in different categories for the conference period. Further information is provided at www.masterclass-plasticsurgery.de/travel-hotels/hotels.

**Travel**

**Arrival by plane**
Taxis are leaving directly in front of the terminal. Your journey by taxi will take about 20 minutes and costs approximately 35 EUR.

**Arrival by train**
After two minutes walk you will reach the tram stop “Kröpcke”. From there please take line 4 (direction “Garbsen”) or line 5 (direction “Stöcken”) to tram stop “Herrenhäuser Gärten”.

**Cooperation with German Railway**
Event Ticket for a single journey, for use only on one specific connection (subject to availability):
- Second Class: 49,50 EUR
- First Class: 79,50 EUR

Event Ticket for single journey, for use on all connections (always available):
- Second Class: 69,50 EUR
- First Class: 99,50 EUR

This offer is valid until 31 December 2018. Please find the full range of information about DB’s Event Ticket online at https://www.bahn.de/p/view/bahnbusiness/buchung/veranstaltungsticket/veranstaltungsticket.shtml

**Parking**
About 200 meter on the right side of Herrenhausen Castle there is a parking lot.
Address: Herrenhäuser Straße, 30419 Hannover
Please enter Herrenhäuser Straße in your navigation device!
The car park is open all day.
Parking fees: 3 EUR per 4 hours  I  Day ticket: 12 EUR

Further parking opportunities free of charge are available on the opposite street “Am Großen Garten”.
Certification
... for participants from Germany
The conference will be certified by the “Ärztekammer Niedersachsen”.

Proof of attendance
For certification you must provide proof of attendance. Therefore please sign/add your bar code to the list at the check-in desk, on-site every day at the conference.

Certificate of attendance
Certificates of attendance will first be made available on the last day of the conference at the check-in desk.

The points for further training will be transferred to the Medical Chamber of Lower Saxony electronically. Please hand in your certificate of attendance at your competent Medical Chamber to receive your points.

ZEISS OPMI PENTERO® 800

**OPMI® PENTERO® 800 von ZEISS**

Das Komplettpaket für die komplexe rekonstruktive Chirurgie umfasst:

- die fluoreszenz-gestützte Beurteilung* des Blutflusses und der Gefäßdurchgängigkeit bei Anastomosen direkt während der Operation.
- die Darstellung kleiner Lymphgefäße in bis zu 39-facher Vergrößerung.
- die flexible Positionierung, um Anatomie auch in schwer einsehbaren Bereichen des Operationsfeldes darzustellen.

*Verwendung des Fluoreszenzmittels nur entsprechend dem Stand der Zulassung im jeweiligen Land.
